

EL-EB4 EMERGENCY BREAK GLASS

The EL-EB4 Series provides a quick and safe manual override during emergency situations, making it an essential component in access control and fire safety systems.

It is resettable with a key, allowing for easy testing and maintenance without replacing parts. Designed for flexibility, it is suitable for both surface and flush mounting.

The glass panel is replaceable, ensuring long-term usability and cost efficiency. The unit is constructed from durable ABS PA-757 material.

The EL-EB4 Series is available in green, red, and blue, allowing users to match the unit with specific safety or design requirements.

With compact dimensions of 87mm (H) x 52mm (L) x 87mm (W), it fits seamlessly into various installation environments while maintaining a strong and secure emergency release function.

EMERGENCY EXIT SERIES

Power Supply:	DC12V / DC24V
Contact Rating:	10A @12V DC, 3A@48V DC, 10A@ 250V AC
Contact Type:	N.O/ N.C/ COM
Material:	ABS Plastic
Operating Temperature:	-20°C to 55°C
Mechanical Life:	500,000 Tested Aging Test Qualified
Mounting Type:	Surface Mount & Flush Mount
Dimension:	87 (H) x 52 (L) x 87 (W) mm
