

EL-EC1 TOUCH EXIT BUTTON

The EL-EC1 is a compact and durable touch-to-exit button, designed for seamless integration with any access control system. It uses capacitive touch technology to provide a smooth and reliable door release experience.

Made with a 304 stainless steel panel, it ensures long-lasting performance in dry indoor environments, with an IP40 rating. The EL-EC1 supports N.O., N.C., and COM output contacts, offering flexible connectivity for various installations.

Tested for 100,000 mechanical cycles, it meets essential durability standards for frequent use.

An ideal solution for indoor applications requiring a compact and modern touch exit button.

EXIT BUTTON SERIES
